

Delivering IT Solutions for Your Business Needs

PEOPLE • PROCESS • TECHNOLOGY

The Power of Information Technology in the Right Hands

Inevitability

Ananke propels your organization forward with state-of-the-art IT services.

Efficient management of data and technology is crucial to the competitive strategy of every organization. The business climate demands not only maintenance of existing protocols but also anticipation of tomorrow's opportunities and challenges. Ananke offers the breadth and depth of expertise to give you that edge.

Necessity

Ananke's origins

Formed in 1994, Ananke, Inc. is a privately owned IT Services Company headquartered in Providence, RI. Founder John Conway firmly believes that the highest quality of information technology services are necessary to the success of our clients. The Ananke team is committed to providing premier IT services and paying close attention to details, so that our clients can concentrate on their core business.

Commitment

Ananke exemplifies proven IT excellence.

Since 1994, Ananke has grown by providing reliable and high quality Professional Services, Managed Services, and Staffing Services to some of the largest companies in the world. With a diverse team of seasoned technology experts, Ananke brings a wealth of intellectual property and expertise across all industries.

Our track record of professionalism and commitment to our clients has been clearly documented with client satisfaction surveys and endorsements received over the years. Our partnerships, certifications, and employees enable us to deliver the right solutions to our clients, paving the way for their growth, mergers, acquisitions, restructuring, or cost saving initiatives.

Ananke's excellence is driven from the top of our company down to our strong Technical and Business Management team. With our unparalleled knowledge of the IT industry and our years of hands on experience, we provide a full suite of IT services, second to none, to our clients. We deliver the proper IT solutions based on your specific business needs.

Ananke: *ah-nang'-kee.*
Necessity. Inevitability.
Commitment.

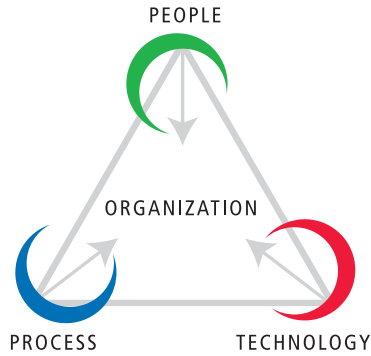

*In Greek mythology,
Ananke was the
personification of
Destiny, Unalterable
Necessity and Fate.
She was the only
goddess with power
over almighty Zeus.*

Methodology

Ananke's methodology is a framework for success.

“Our mission is to assist clients in overcoming today’s business and IT challenges, allowing a greater focus on core objectives. Our success, as well as our clients’ success, is attributed to our methodology and our focus on People, Process, and Technology.”

– John Conway, President & CEO.

PEOPLE are linked by common interests.

We aim to gain your confidence in our competencies, and to earn your trust to establish long-lasting relationships.

PROCESS includes actions or operations that deliver consistent successful results.

We listen and analyze, present options and solutions, then design and implement.

TECHNOLOGY provides the conduit by which to improve your business.

We introduce technologies to sustain or grow your business and provide knowledge transfer and ongoing support to ensure continued success.

Collaboration

Talented professionals work as a team to support our clients.

Every Ananke professional brings individual talent and value, from our helpdesk agents and junior consultants to our specialized senior consultants. As one of only a handful of Microsoft Gold Certified Partners based in New England, we provide the same professional expertise, support, and methodologies to our small business clients that we provide to our Fortune 50 clients.

Each Ananke team member is part of an open forum and collaborative effort, reaching out to and making themselves available to each other in support of our clients. This availability of expertise and professionalism is a unique offering that Ananke provides.

We review and assess not just the IT environment, but also how it relates with the organization as a whole, so our recommendations and actions result in a solution that strengthens and supports your overall objectives.

COMPREHENSIVE

Professional Services offers detailed recommendations.

Ananke's Professional Services offers custom designed, project-oriented or comprehensive IT management and specialized services to assist both large and small organizations to maximize their potential. Our competencies

include advanced infrastructure, business process and integration, data management, security, information worker, learning, mobility, Microsoft Business Solutions, networking infrastructure and OEM hardware solutions.

IT FOR ANY SIZE COMPANY

Small Business Services provides IT advantages to smaller companies.

Small Business Services by Ananke makes it possible for smaller companies to benefit from IT just as larger companies do. Tailored

to your unique needs, we provide solutions that fit within your budget. Our smaller clients have been able to gain the advantages of our technological expertise, without having to establish their own IT departments. We offer multiple levels of service, providing options to fit your budget and objectives.

FUNCTIONALITY

Managed Services provides IT solutions for any organization.

Managed Services offers a range of on-site and off-site services scalable to any size of business. Our cost-efficient approach includes regular maintenance and upgrades to keep systems working

smoothly, as well as identifying and solving problems before they impact business. In effect, we can become our client's IT department at a fraction of the cost of running it themselves.

TALENT

Staffing Services put the best people where you need them, when you want them.

Ananke's Staffing Services provides highly qualified short-term, long-term and permanent information technology personnel tailored to each client's

situation. We can augment day-to-day efforts or provide specialized consultants for major projects. Our pool of skilled IT professionals can step in at a moment's notice to fill a technical lead or team member need. Once candidates pass through the rigorous interview process, we will present you with the best candidate for the job, one whose qualifications and personality we feel will best fit your company.

Call Ananke to discuss unique IT solutions to fuel your organization's success.

"OUR MISSION IS TO ASSIST CLIENTS in overcoming today's business and IT challenges, allowing a greater focus on core objectives. Our success, as well as our clients' success, is attributed to our methodology and our focus on People, Process, and Technology."

— John Conway, President & CEO
