## **The Big Easy Offer with Ananke IT Solutions**

Providence, Rhode Island – March 16, 2009

Ananke IT Solutions is making available to local businesses, the opportunity to take advantage of The Big Easy Offer 3.0 from Microsoft. **The Big Easy Offer allows Ananke's clients, who make a qualifying purchase, to earn potentially thousands of dollars back in the form of software, hardware and services.** The subsidy from Microsoft gives organizations the funding they need to implement a comprehensive solution now, rather than buying solution components separately over an extended period of time. This is a limited-time offer which runs until June 26, 2009.

The Big Easy Offer 3.0 makes available a host of popular Microsoft solutions such as 2007 Microsoft Office System, Microsoft Windows Server 2008, Microsoft Dynamics CRM, and new solutions like Microsoft System Center Essentials. By taking advantage of this single promotion, as opposed to multiple single-product promotions, Ananke clients receive added value to additional purchases made from different product groups and receive higher subsidy funding.

Rob Miner, Director of Sales at Ananke says, "We are excited about the Big Easy Offer because it gives our clients the chance to get funding from Microsoft to implement the products and solutions they need now. These subsidies are substantial and when a client purchases from more than one product group they increase their subsidy funds dramatically. This is an opportunity to get Ananke's services paid in part, if not whole, by Microsoft".
